Gary PierceDocket No. E-01345A-07-0663
Docket No. T-01846B-07-0663

Gentlemen:

I am the owner of the above referenced Lot 113 in the Hillcrest Bay tract. It has been suggested to me that I am on record with the Commission as being in favor of the USCA because I signed the first petition related to it and have not filed a formal protest against it.

I signed the first petition because I understood that its purpose was to initiate an analysis of projected costs to the property owners in the event that the project was ultimately agreed to and undertaken. I did not sign the second petition because after seeing the purported cost analysis that was produced pursuant to the first petition, I felt that the total cost would exceed any possible benefit that might be realized by the property owners. I did not thereafter file an "objection" to the project because my understanding was that such objection needed to be filed only to change a vote. There should be no misunderstanding; I am opposed to the USCA project and if a formal objection is required, please consider this to be mine.
